SAFAL VIHAAN
HOMES AMIDST NATURE

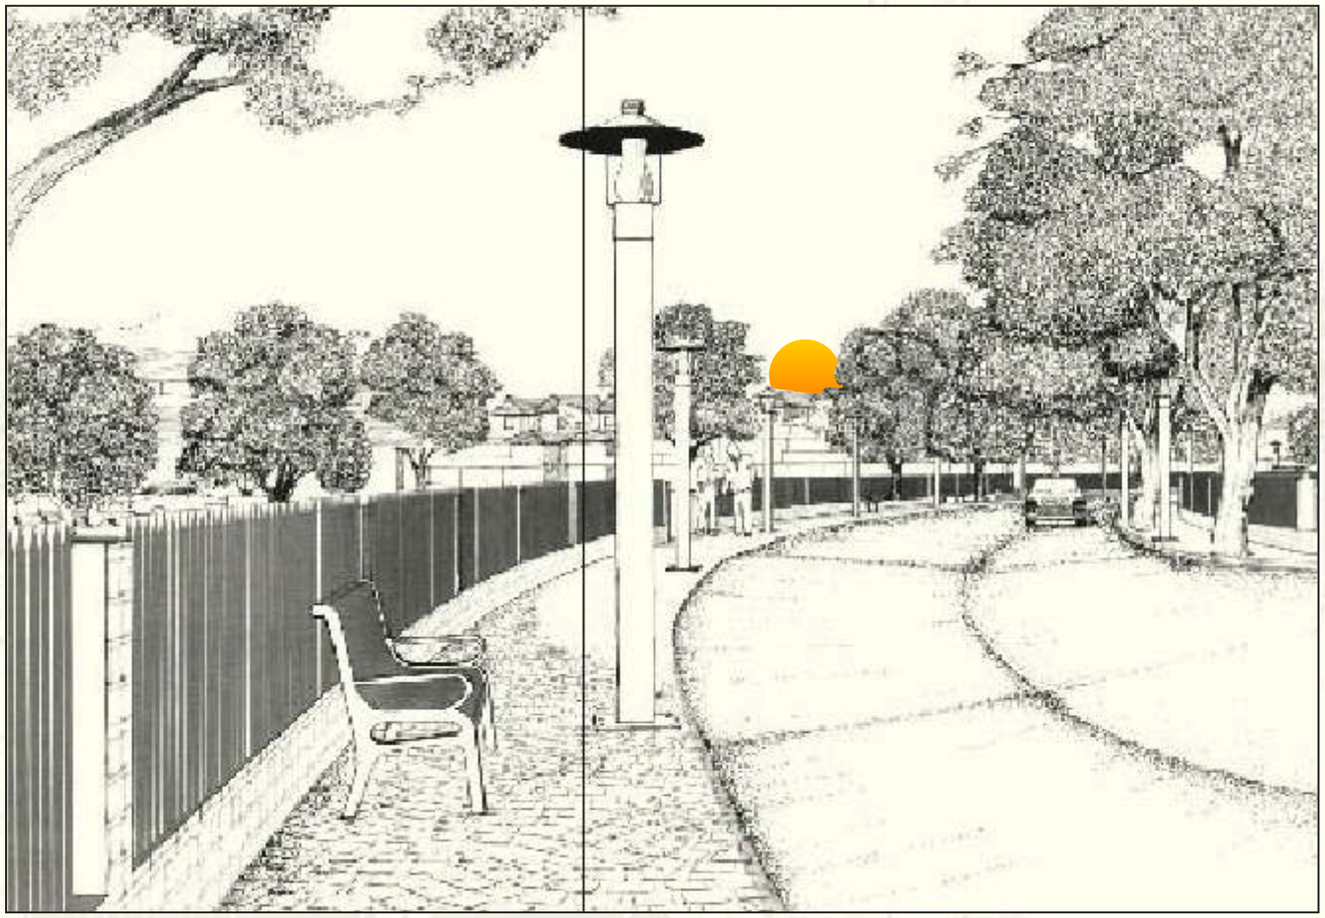
सुनो ए! खुद से कि
हम क्यों आज रहे हैं
तो खुद-ब-खुद आ जाती है हँसी
ऐसे जैसे माँ को छोड़ के अपनों आप
आता है शिशुजा
अलसाए पुत्र को पलों से झाँकते हुए
पूछता है - क्यों, खुद से नहीं मिलोगे क्या?
क्यों नहीं?
रोम-रोम खोलती हवाएं, सोंधी-सोंधी धरती पर
उठे आस के ऊपर उकडू बैठा मन्नू भा लोचा, देता होश
भुगचाए अपर हल्की सफेद लाटें
की प्रिय लगा चुम्बने लगा, रंग बदलता आसमान
और इन सब के बीच मेरी आंखों में उगते हुए तुम
नहीं, जैसे की किसी ख्वाहिश नहीं..
अब तो सिद्ध है...
क्यों, हुए सवेरे यदि मिलें तो कैसा रहेगा!

Slow down. Start living.

As the first sunrays drench the landscape in an orange hue, it is time for you to wake up, take the flight up to the terrace or simply open your window to watch a spectacle called the sunrise. No billboards, no dish antennas and absolutely no concrete to block your view. Though, a lush branch of one of the 527 dense cheeku trees in this orchard might occasionally sway into your sight. But, then you'll love the greens as much as you love the sun's orange.

Enjoy the early morning cup of tea and the evening barbeque, the walk in the woods and idling on the park bench. Don't let anything worry you. Safal Vihaan is a single gated community with surveillance cameras and hi-tech security arrangements. And, this home amidst an orchard is just 8.5 kilometers from Fun Republic. Which means, a number of schools, colleges, offices, shopping and entertainment complexes are in close proximity. Just a 10-minute drive away, to be precise.

So, slow down and hear the cuckoos coo. Slow down to watch the peacocks flutter by and the children climb up the tree houses. Strain your ears a bit and hear the wind gossip with the woods. Soak these sights; absorb the sounds, and fill-in the fresh air. Because, you cannot buy these at any of the malls. But, there is plenty of it here in Safal Vihaan and it is all yours.



Not trees around homes. But, these are homes built around trees.

Design by Kamal Mangaldas, Devendra Shah and Jagrut Patel.

In Safal Vihaan, we bring together some of the most renowned names in architecture. The principle design team is of Kamal Mangaldas and Devendra Shah, who believe that economy and discipline in building is possible only when architects and engineers work in partnership. Also, working alongside them is Jagrut Patel, head of VITAN, an architecture-consulting firm.
He believes in evolution of a building form through integration of innovation, function and purposeful use of building materials.

The design team has envisioned open spaces with minimalist designs for Safal Vihaan. These homes have been designed as a retreat from the urban cacophony and chaos. The team has decided to keep the natural surroundings completely intact. Thus, the trees that are here since the last 25 years stand tall today as they did before the construction began. And the houses – the bungalows, the condominium and the clubhouse are built around them.

Expanse

1 lakh square yard

Location

Nr. Eklavya School, Sanand-Sanathal Road,
8.5 kms from Fun Republic

Types of homes
